

***Rhabdorrhynchus echii* - Remark**

Remarks: Before 2012 (Meregalli & Alonso-Zarazaga 2012) all specimens of *R. echii* were referred to *R. seriegranosus*. Most of the citations regarding the distribution of the two species are therefore not reliable; the European distribution reported by Fauna Europaea for *R. seriegranosus* was referred to *R. echii* based on the known distribution of the species.
